

Pipi-Stop

AntiNass

Melebi SA

The new Pipi-Stop (AntiNass)

TREATMENT OF THE NOCTURNAL ENURESIS (BEHAVIOURAL THERAPY)

Swiss made

Technological improvements:

Transmitter:

- Size: more than twice smaller + rounder design > more comfort
- Autonomy: distinctly better
- Electromagnetic radiation: more than 100'000 times weaker as a mobile phone

Receiver:

- Easier to use
- Higher effectiveness of the adjustable sound
- New design

Fulfils the CE standards

Wireless > security and reliability

The set includes:

1 urine detector / 1 transmitter / 1 receiver / 1 power supply

The Pipi-Stop is rented for CHF 4.30/day, starting with the 71st day for CHF 2.80/day

The obligatory refund by the basic insurances is much higher since 2008, after our request to the Federal Office of Public Health FOPH:

since 5 years of age: up to CHF 3.40/day, starting with the 71st day up to CHF 2.40/day.

Certain complementary insurances refund the price difference.
